Littles Scope and Sequence 2027

Big faith starts little.

About the GO! Littles Scope and Sequence:

The GO! Littles Scope and Sequence is built on a simple belief: kids are never too little to learn about Jesus. From their earliest days, babies and toddlers can begin discovering who God is and how much He loves them. Each month centers on one simple Big Idea, Bible story, and memory verse, giving little ones the repetition they need to learn and remember biblical truth.

Because babies and toddlers learn in very different ways, every week includes two age-specific lesson plans — one for Babies and one for Toddlers & Twos. Both teach the same biblical truth through developmentally appropriate activities designed especially for that age. Whether your church has separate classrooms or one combined nursery, GO! Littles works with your setup.

Play With a Purpose

Littles don't sit still for a lecture — they learn with their hands, their senses, and their whole wiggly bodies. Every song, game, and activity earns its spot:

- **Routine & Repetition:** Consistent, repeated rhythms help littles feel safe, confident, and ready to learn.
- **Learning Through the Senses:** Seeing, touching, hearing, even tasting — every lesson engages the senses God gave them to explore His world.
- **Active & Pretend Play:** Littles don't want to watch, they want to do! Every activity gets little hands moving and imaginations running.
- **Music & Movement:** Original songs, motions, and movement turn learning into joy (and burn off some of that toddler energy).
- **Exploration & Discovery:** "What's inside? What happens next?" That curiosity is the start of courage and confidence — messes included.
